## Education

### • Panimalar Engineering College, Chennai

B.Tech., Information Technology

2027

CGPA/Percentage: 8.5

### • Smt NDJA VV Ser Sec School

Central Board of Secondary Education

2023

CGPA/Percentage: 75.3

## Projects

### Toxic Comment Detection

August 2025

Tools and Technologies used : Node JS, React JS, MongoDB, ML-NLP.

This project is a web-based chat system that uses Natural Language Processing and machine learning to automatically detect, classify, and control toxic comments in real time, helping maintain a safe and respectful online environment.

### Language Agnostic Bot

November 2025

A language-agnostic chat bot is an AI system that can understand and respond to users in multiple languages.

Tools and Technologies used : React JS, Python FastAPI, Pinecone, HuggingFace, LLaMA-3, n8n, MongoDB.

Our Language Agnostic Chatbot provides instant, accurate, and multilingual responses to common student queries like admissions, fees, scholarships, exam schedules, timetable details, department info, and general college services

### UniAssist AI – Next-Gen College Support System

February 2026 - current

Currently developing an AI-powered chatbot for college websites using LLaMA3 and Phi-3 models, built with FastAPI and deployed using Python Unicorn for high performance.

Unlike orchestration-based frameworks, this system directly handles intelligent query processing and database operations for students and staff support.

## Internships

### • Elewayte

June-July 2023

Artificial Intelligence Programmer

Bengaluru

Performing data analysis for various AI applications.

Experience with data analysis and a foundational knowledge of statistics, probability, and linear algebra is often beneficial.

### • Alfidio Tech

June-July 2025

Java Developer

Hyderabad

Write, test, and debug code for Java-based applications and features.

Assist in identifying and resolving bugs and performance issues.

### • TANSAM (Tamilnadu smart and advanced manufacturing centre)

February 2026 - current

Research Assistant

Chennai

Developing an AI-powered chatbot that can seamlessly integrate with any college website to assist staff.

The chatbot also supports direct database operations, enabling query handling and real-time data management.

## Technical Skills

**Languages:** Python, Java, HTML, CSS, JavaScript

**Developer Tools:** GitHub, Eclipse, VS Code

**Cloud/Databases:** PostGre SQL, Mongo DB

**API Development:** Fast API, Rest API

**AI Tools:** ChatGPT, ClaudeAI, Gemini

## Achievements

• 2024 Ideathon Winner

February 12, 2024

• 2025 SIH Grand Finale Runner Up

December 9, 2025

• 2026 Code-a-thon Runner Up (VIT Mumbai)

January 31, 2026

• 2026 SA Hackathon'26 Winner

March 26, 2026
